Infinite solutions for storing new spaces

**“Kuboa emerges from simplicity to beauty...  
Mondrian style layout”**

I created Kuboa under the concept of minimalist design, with character and style.

A versatile design, adaptable to the day to day needs of its users and spaces.

**Bet Blanch**  
Industrial designer

# Welcome to Kuboa

## Welcome to adaptive storage system

Kuboa is a module system that adapts to every environment.

Two combinable modules, able to be electrified, with accessories and more than 80 personalizable finishing touches.

Almost infinite options.

Kuboa is a simple and configurable system

Kuboa simplicity.

Everything starts through two configurable modules, with the possibilities to electrify and personalize materials, accessories, and colours according to your space's needs.

- Electrifiable
- Doors, worktops, and side covering designs to choose from over 80 personalizable finishing from metal, melamine, phenolic board, and acoustic panels.
- Seats
- Accessories (light, hangers, planters, shelves...)

Kuboa is ecodesigned.  
Materials and productive processes have been minimized to reduce environmental impact.

Kuboa is electrificable

Electric panels.  
Connect and assemble.

**Kuboa** is easily to electrify

Kuboa modules can be electrified through a panel with a schuko connection and two USB charging stations.

Can be easily assembled to the modules.

## Many workspaces in a single workspace

Kuboa is personalizable

## Build your own Kuboa space

Your Kuboa can be unique, through the great variety of colour and materials.

Mas-Office are manufacture.

We can personalize Kuboa staying true to your especial or corporate colours.

Metal (multiple possibilities following RAL colour standard)

Melamine

Phenolic

Acoustic panels  
(worktops and side covering designs)

Seats
